INNER BAGS FOR NORGE SIDEBAGS

Quickly remove the contents while leaving the sidebags on the bike. The internal semi-rigid sidebag kit is designed specifically for the standard Norge or Brevia 1100/1200 Sport accessory side cases. These inner bags are made of nylon and have a padded shoulder strap for easy carrying and a zip pocket to hold small items.

code 977789

TANKBAG KIT

Essential for touring, this tank bag in nylon and PVC reaches a volume of approximately 16 liters. Made with the utmost attention to Details, it meets the needs of the most demanding touring riders. The bag has reflective inserts and includes a rain cover to protect the contents from water, even in the worst weather conditions. Its handle allows it to be easily carried. Specially designed for Norge, the mounting system makes it perfectly integrated into the design of the bike.

code 977712

LOWER GEL SEAT

With a revised profile, gel padding, and a 29 inch (760mm) height, this lowered seat allows an easier reach to the ground. It employs the same high-grip OEM saddle material and matches the backrest pad on the OEM topbox.

code 977713

NORGE 1200 8V GT

GPS MOUNT

This aluminum bracket mounts the TomTom Rider 3 (or other GPS/Phone mounts, some additional labor required) to the top triple clamp. Its location allows for maximum visibility and an easy reach to the GPS or a cell phone.

code 886955

NORGE BIKE COVER

Specifically made to fit a Norge with topbox and sidebags, this bike cover is made of scratch-resistant red fabric. A Norge logo in black adorns both sides.

code 977716

HANDLEBAR BAG

Made of nylon and PVC and attached by Velcro straps to the handlebar risers, this handy carry-all can be transformed into a shoulder bag.

Caution: Does not allow installation of the GPS mount, code 886955.

code GU95040300002

FINAL DRIVE GUARD

Rear shaft drive guard is made from steel for additional strength and powdercoated for durability. Gives you added protection where you need it.

code 983173

REAR RACK KIT FOR 45L TOPBOX

The same rack that is standard on the Stelvio, this versatile and sturdy rear carrier, made of steel and composite material, allows to fitment of the 45L-plastic or 38L-aluminum topbox. Can also be fitted to the Brevia 1100, 1200 Sport, and Norges.

Please note that this is not necessary for installing the CM2267XX topbox kits.

code GU05677230

45L QUICK-RELEASE TOPBOX

For practically any application, Guzzi offer this 45 liter topbox, large enough to hold two full face helmets with a large Imitation leather backrest for greater passenger comfort. Included is a mounting plate in composite material for easy fitting to most luggage racks. Rack GU05677230 necessary for installation on Norge, Brevia 1100, or 1200 Sport.

code GU05487631

ALUMINUM 38L TOPBOX

This quick-release topbox includes a special bracket to attach it to the luggage rack in proper position. Also included are two keys and all necessary hardware. Installation on the Norge requires luggage rack kit GU05677230; installation on the Stelvio uses the OEM rack and nothing additional.

code B063103

TAIL BAG

Tailbag made of nylon and PVC, designed to fit onto the passenger seat and gives additional support to the rider. Comes with a fitted rain cover and holds between 22 and 26L. The perfect place to put things like rain gear and extra gloves.

code GU95040300001

BILLET NATURAL ALUMINUM MIRRORS

Special homologated CNC mirrors with glossy anti-scratch finish. Allows better visibility and adds style to your Moto Guzzi.

code B064245

Also available in black, code 2S000031

BAR END MIRRORS

Bar end mirrors for your Moto Guzzi that replace the factory mirrors. Made of aluminum, with rubber isolated ball joints and stainless steel screws.

These have a mirror that is large enough to be useful while riding, giving an excellent view of what is behind you. They are fixed to the handlebar and also function as handguards, leaving the reflective part in a similar position to the factory mirrors.

code 2S000330

MOTO GUZZI®

ALUMINUM 38L TOPBOX

This quick-release topbox includes a special bracket to attach it to the luggage rack in proper position. Also included are two keys and all necessary hardware. Installation on the Norge requires luggage rack kit GU05677230; installation on the Stelvio uses the OEM rack and nothing additional.

code B063103

45L QUICK-RELEASE TOPBOX

For practically any application, Guzzi offer this 45 liter topbox, large enough to hold two full face helmets with a large Imitation leather backrest for greater passenger comfort. Included is a mounting plate in composite material for easy fitting to most luggage racks, including the Stelvio's. Rack GU05677230 necessary for installation on Norge, Brevia 1100, or 1200 Sport.

code GU05487631

HANDLE KIT FOR ALUMINUM SIDE CASES

Pair of nylon handles, they are fixed with Velcro to the rings on the aluminum covers, and transform the sidebags into suitcases.

code 896055

INNER BAG SET

Pair of bags in nylon for the aluminum sidebags, with rubber-coated top handles. Zippered top opening compartment allows you to fill up the space in your sidebag, then slide the bag into the bike and be on your way.

code 983303

FINAL DRIVE GUARD

Rear shaft drive guard is made from steel for additional strength and powdercoated for durability. Gives you added protection where you need it.

code 983173

HEADLIGHT BRUSH GUARD

Protect your headlight when doing serious off road riding. Made of high grade powder coated steel, this guard offers effective protection for the front light. Not homologated for public road use.

code 897774

HEATED HANDGRIPS KIT

The kit consists of the pair of heated grips that plug into dedicated connectors in the bike's wiring harness. Can be used with or without the hand guards.

code 983155

37L ALUMINUM SIDEBAG KIT

The OEM aluminum bags and brackets from the NTX are available to install onto an older Stelvio. The same supplied keys fit the locking lids and the quick-detach bag latches. Hardware included. Inner bag set (code 983303) sold separately.

code B064004

ROADLOCK FRONT WHEEL IMMOBILIZER

The ROADLOCK is a permanently mounted lock bracket that attaches to the front brake caliper. It allows a locking pin to be inserted which locks the front wheel, completely stopping it from turning.

Once activated, the bike can still be placed on its centerstand since the front wheel can easily be dragged backwards but the bike cannot be removed from its centerstand because the front wheel cannot be rolled forwards.

code 886669

ELECTRONIC ALARM KIT

This anti-theft system has been developed in collaboration with market leader Metasystem. The system comprises two boxes. The system contains a case and two remote controls.

code 887335

NTX SUMP GUARD KIT

This OEM Stelvio NTX 3mm-thick aluminum bellypan protects the oil pan from hits or spray from the front wheel and additionally helps cool the engine. It requires the engine guard to mount. Available to replace the OEM sump guard on an NTX or to upgrade an older Stelvio.

code 883979

NTX HAND GUARD KIT

OEM on the NTX, this handguard kit consists of a pair of plastic handguards (nylon PA6), dedicated barends and mounting hardware (you can combine it with the heated grips code 983155). Available to replace the OEM set, upgrade an older Stelvio, or embellish a Brevia 1100, 1200 Sport or Griso.

code 983157

FOG LIGHT KIT

This is the OEM NTX fog light kit made of magnesium and aluminum, giving optimal visibility in all weather conditions. Total power requirement: 110W.

This kit is available to replace the OEM lights or to upgrade earlier non-NTX Stelvios; additional bracket required.

code 887321

NTX ENGINE GUARD KIT

These are the OEM NTX engine guards, made of painted steel. They ensure effective protection of the engine in case of fall at moderate speeds. This kit also mounts the fog lights and the aluminum sump guard.

Available to replace the OEM set or to upgrade an older Stelvio.

code 887322

LEATHER SIDEBAG SET

Add extra style to your California 1400 with this handmade Italian leather sidebag set. Same capacity of 35L each (70L total) as the painted 1400 Touring bags, these are constructed from a plastic shell with leather exterior. These bags feature chrome latches and work with the OEM sidebag guards on the Touring, offered as an accessory for the 1400 Custom.

These bags directly interchange with those standard on the 1400 Touring. Mounting to the 1400 Custom requires the side case support kit below (sold separately).

code B064239

SIDE CASE SUPPORT KIT

Necessary kit to mount the leather side cases.

code B064286

CALIFORNIA 1400 CUSTOM

1400 CUSTOM BIKE COVER

Customized cover assures protection from dust and can be used when parking indoors. It is made of stretch fabric with two-tone graphics in line with the style of the bike.

Intended for use with a California 1400 Custom without windscreen, sidebags, or a topbox.

code 2S000062

For bikes with a accessories please use one of the covers for the California 1400 Touring.

SIDE CASE BUMPER KIT

These are the OEM sidebag protectors found on the California 1400 Touring, designed by Centro Stile Moto Guzzi. They are made of chromed tubing that follows the lines of the bike. They provide specific protection to the side cases mounted on the bike.

This kit is available to replace the OEM bumpers on a Touring or as an addition to a 1400 Custom.

MOTO GUZZI®

WINDSHIELD KIT

The windshield is made of polycarbonate and approved by the DOT. Long tested in all conditions it provides excellent wind protection while enhancing the unique look of the Griso. Its stainless steel supports can be adjusted to different positions so as to always guarantee the best comfort when riding.

code 887773

FLYSCREEN KIT

This plexiglass flyscreen makes the Griso even more attractive and improves aerodynamics. Tested in a wind tunnel and on the road, it ensures greater comfort over long distances. DOT approved.

code GU06977200

SEMI-RIGID SIDEBAGS KIT

This kit consists of a pair of semi-rigid bags, mounting hardware, rain covers, fasteners, and instructions.

The sidebags are easily removable thanks to the patented Fast Click® system, and once in place can be locked to the mounts. The volume varies from 18 to 20 liters. The kit is tested and approved by the technical department Moto Guzzi.

code GU06480100

SERVICE STAND

Made of powder coated steel, (together with the front support included), The Griso service stand allows you to easily lift the bike to perform routine maintenance or, in the case of prolonged storage, to be moved easily thanks to the strong nylon wheels.

code GU973243500010

REAR CARRIER KIT

This rugged luggage rack, made of powder coated steel, provides a handy place to strap on gear, including the dedicated tail bag, sold separately.

code GU06677200

SPORT TAIL BAG

The nylon and PVC tail bag with rain cover attaches to the Griso rear carrier kit (sold separately) and can be easily removed, becoming a useful carrying case.

Its volume varies from 8 to 12 liters via adjustable straps.

code GU973243500001

TOURING TAIL BAG

The tail bag, made of nylon and PVC, offers high load capacity with a volume ranging from 15 to 20 liters. It attaches with four adjustable straps under the bike tail. Once removed, it can be carried comfortably with the anatomic handle.

code 983033

GRISO BIKE COVER

This bike cover is made of anti-scratch black fabric for indoor use with Griso logos on both sides. Please note the sidebags and tailbag (if installed) must be removed from the Griso to use this cover.

code GU973243500000

BIG TANKBAG

This nylon and PVC tank bag has a volume of around 18 liters, waterproof zippers, reflective inserts, clear map holder pouch, and a rain hood to protect even in the worst weather conditions. Its anatomic handle allows it to be carried comfortably.

The kit is completed with mounts.

code GU06481500

SMALL TANKBAG

Indispensable for storing small items, the tank bag made of nylon and PVC has a small-sized volume that makes it space-saving and easy to carry.

Designed specifically for the Griso, the bag has waterproof zippers, reflective inserts, and a rain hood to protect even in the worst weather conditions. Its anatomic handle allows it to be carried comfortably. Releases from the bike with a single touch. The base has four powerful magnets that ensure grip even at maximum speed.

Includes the bag and mounting base.

MOTO GUZZI®

**GUZZI GARAGE
DAPPER**

From England to the US, it crossed the ocean in a flash in the '60s.
Today the café racer style makes your V7 unique.

SET OF THREE NUMBER PLATES

Three number plates, one front plate and two side plates, mounted on the anodized black side panels in hand polished natural aluminum and with relative brackets. All that's left is for you to choose your lucky number to put on your V7.

code: 2S000148

CHROME-PLATED STEEL FUEL TANK

Combined with the polished aluminum elements, this chromium plated steel fuel tank is the best way to give your V7 a personal look in line with the café racer version.

It's also a great way to upgrade the look of your older V7 Classic or Café, although use on earlier vehicles with OEM plastic tanks will require additional items sold separately.

code: 606133M

FRONT AND REAR BOBBED POLISHED FENDERS

Smaller than stock, these hand-polished natural aluminum fenders transform your V7 into a silver bullet, irresistible and lightning fast.

Please note that to be able to use the USA OEM tail light requires 2S000500, sold separately.

code: 2S000147

USA LICENSE PLATE BRACKET KIT

Arch-shaped bracket for your V7 license plate to be used with the aluminum mudguards which highlight the line, finish and style of the bike.

This is needed to reuse the OEM taillight/plate holder/turn signals which come with the bike.

code: 605989M

LUGGAGE RACK

Made of tubular steel and finished in black, this is designed to attach the tool bag (605989M or 605991M). Available in two sizes:

small
code: 2S000256
Large
code: 2S000259

ALUMINUM FOOTPEGS

Aluminum footpegs, light and sporty, they highlight the racing spirit of the V7.

Front
code: 2S000168

Rear
code: 2S000169

DRILLED BUSHINGS SET

Three drilled bushings to improve the look of the V7, applied in correspondence with the shock absorber fittings.

code: 2S000172

GUZZI GARAGE SCRAMBLER

HANDLEBAR

Replacement handlebar for those looking to keep the original riding position but make a statement in either black or chrome. These match the contour of the original handlebar on the V7 Classic, Special, and Stone.

Black
code: 2S000173

Chrome
code: 2S000174

MOTORCYCLE COVER

Tailor-made motorcycle cover for inside to protect against dust, intended for use during long periods of storing the bike in a garage. It is made from an elasticised fabric with graphics dedicated to the bike.

MOTO GUZZI®

**GUZZI GARAGE
LEGEND**

Where does the staunch Moto Guzzi pride stem from?
Not from nostalgia, but from its character.

GUZZI GARAGE LEGEND

KIT OLIVE GREEN

Complete kit that includes the fuel tank, mudguards and side panels painted in Alce green, the historic Moto Guzzi model. It will completely transform the look of your V7.

code: 606131M

HIGH EXHAUST

2 into 1 exhaust with modern technology but a classic look: reminiscent of the timeless '70s era Scrambler Guzzis.

EU ABS version
code: 2S000311

USA ABS version
code: 2S000627

EU Non- ABS version
code: 2S000313

USA Non-ABS version
code: 2S000628

This exhaust will need a dedicated support.

- If the bike has the accessory Aluminum mudguard please use 2S000325.
- If the bike has the OEM plastic mudguard please use 2S000324.

Because the exhaust is on the side, the footpegs will have to be wider. This can be done two ways:

1. Off-road footpegs 2S000258, for those who do not need as aggressive a footpeg all the time the Aluminum covers 2S000320 (two pieces necessary) can be added and removed quickly.
2. Wide cover footpeg kit 2S000451

Both footpeg choices will need:

- short shift/brake pegs 2S000323 (two pieces necessary).

FRONT AND REAR EXTRA LONG SATIN FINISHED FENDERS

Natural Aluminum long mudguards, satin finished by hand and lighter than the conventional ones.

Please note that to be able to use the USA OEM rear tail light will require 2S000500, sold separately.

code: 2S000152

USA LICENSE PLATE BRACKET KIT

Arch-shaped bracket for your V7 license plate to be used with the black aluminum mudguards which highlight the line, finish and style of the bike.

This is needed to reuse the OEM taillight/plate holder/turn signals which come with the bike.

USA, Most of Canada Sized Plate

code: 2S000500

EU, Quebec + Alberta Canada Sized Plate

code: 2S000282

HIGH EXHAUST SUPPORT BRACKET

Bracket necessary for the mounting of the high exhaust.

For use with accessory Aluminum Fender:
code: 2S000325

For use with OEM Plastic Fender:
code: 2S000324

Aluminum FINISHED BRAKE/SHIFT PEG

For use with the high mounted exhaust. The code corresponds to one brake/shift peg: two pieces must be ordered.

code: 2S000323

OFF ROAD FOOTPEG KIT

Footpegs kit for your V7 designed specifically for off-road use. They will help maintain solid footing even in off road conditions. Please note that these are very aggressive in their tread pattern.

Either this or the 2S000451 must be used if the high mounted exhaust is fitted.

code: 2S000258

ALUMINUM FOOTPEG COVER

Sold each, meant to be easily installed on the off road footpeg 2S000258 to make it less grabby, can easily be removed to return the footpeg to aggressive.

code: 2S000320

WIDER FOOTPEGS (PAIR)

Pair of wider footpegs, finished with knurled surface. Either this or the 2S000258 must be used if the high mounted exhaust is fitted.

code: 2S000451

TANK GRIP KIT

Tank grips made of soft rubber, adhesive to be applied to the sides of the tank, with a diamond pattern and Moto Guzzi logo.

code 897021

BAR END MIRRORS

Bar end mirrors for your V7 that replace the factory mirrors. Made of aluminum, with rubber isolated ball joints and stainless steel screws.

These have a mirror that is large enough to be useful while riding, giving an excellent view of what is behind you. They are fixed to the handlebar and also function as handguards, leaving the reflective part in the same position as the factory mirrors.

Polished aluminum
code: 2S000611

Brushed aluminum
code: 2S000261

Black aluminum
code: 2S000610

PAIR OF POLISHED SILENCER PROTECTORS

Pair of hand polished natural aluminum protectors for factory exhaust. With a more stylish, minimalist design, they carry out the function of protecting the legs from contact with the exhaust. Please note that these are for the stock exhaust only and will not work with the high mounted exhaust.

code: 2S000150

Rubber fork stanchion dust boots

Rubber boots to protect the fork stanchions on your V7 from dust, road residue and anything else you may encounter on your adventures. The code corresponds to one dust boot: two pieces must be ordered.

Please note that the clamps will have to be bought separately. Clamps are spare parts CM001929 and CM001928 and 2 of each will need to be ordered for the whole bike (1x each per side).

code: 606123M

SINGLE SEAT CAFÉ SADDLE

Single-seat sport saddle based on the classic V7 Café line.

code: 883588 (spare part) OR 606124M (accessory)

PREMIUM SINGLE SEAT RIBBED SADDLE

Single seat saddle with more room for the rider. Suitable for either a larger rider or a smaller rider with smaller passenger.

Comes with ribbing for additional support, Moto Guzzi Logo embroidered.

code: 2S000260

PREMIUM ONE AND A HALF SEAT RIBBED SADDLE

Longer saddle for your V7 than the one that is factory mounted on the Café or Racer but smaller than the bi-posto saddle that comes stock on the Stone, Special, Classic. Perfect for riding in a more aerodynamic position as well as for allowing you to ride two-up when necessary.

Comes with ribbing for additional support, Moto Guzzi Logo embroidered.

code: 2S000265

PREMIUM BIPOSTO RIBBED SADDLE

Two-up saddle for your V7 with electro-welded and stitched padding. Comfortable for riding in the city and perfect for your adventures and off-road excursions.

Comes with ribbing for additional support, Moto Guzzi Logo embroidered.

code: 2S000262

POLISHED ALUMINUM TURN SIGNAL RELOCATOR BRACKET

These aluminum relocater brackets for the factory rear turn indicators attach to the rear subframe, moving the turn signals close to the saddle, leaving the rear more free to express all the style.

code: 2S000266

PAIR OF BRUSHED FINISH INJECTOR COVERS

Pair of hand brushed natural aluminum injector covers, an aesthetic variation of the factory injector covers to be matched with the other brushed elements in order to complete the tough look of your V7.

code: 2S000154

BITUBO PERFORMANCE SHOCK ABSORBER

This shock absorbers for Moto Guzzi V7 has been developed with Bitubo and have separate gas reservoir (piggy back) adjustable in preload, compression and rebound. They give a more sporty look to the bike and they improve the comfort and the handling thanks to their exceptional technical features.

These shock absorbers for V7s have been developed by Bitubo with separate gas reservoirs (piggy backs) and are adjustable in preload, compression, and rebound. They give a more sporty look to the bike and they improve the comfort and the handling thanks to their exceptional technical features.

code 606091M

Red Spring only
code 2S000175

CROSSBEAM FOR HANDLEBAR

Crossbeam for black painted Aluminum handlebar to transform the factory handlebar of your V7 into an off-road ready handlebar.

code 605985M

SIDEBAGS

Natural leather bag(s) available in either natural vegetable oil tan or black to attach to the side of your V7. Bags and supports sold separately to reduce replacement costs in case of a mishap.

Natural leather bag on left
code: 2S000264

Black leather bag on left
code: 2S000296 -

Natural leather bag on right
code: 2S000295

Black leather bag on right
code: 2S000297

SIDEBAG SUPPORT

Metal support, necessary to secure the side bag(s) to the vehicle. Please note that the right side is not compatible with the scrambler/legend high mounted Arrow exhaust.

Sidebag Support on right
code: 2S000280

Sidebag Support on left
code: 2S000294

LEATHER TOOLS BAG

A carry-all bag in either natural vegetable tan or black leather finished with an appropriate band of the same colour). The bag is water resistant and can either be mounted to the gas tank using the provided strap or the bag can be mounted to the rear rack, sold separately.

Natural leather tools bag
code: 605991M

Black leather tools bag
code: 605989M

LUGGAGE RACK

Made of tubular steel and finished in black, this is designed to attach the tool bag (605989M or 605991M). Available in two sizes:

small
code: 2S000256
Large
code: 2S000259

ALUMINUM FOOTPEGS

Aluminum footpegs, light and sporty, they highlight the racing spirit of the V7.

Front
code: 2S000168

Rear
code: 2S000169

KIT DRILLED BUSHINGS

Three drilled bushings to improve the look of the V7, applied in correspondence with the shock absorber fittings.

code: 2S000172

HANDLEBAR

MOTO GUZZI®

V7 RACER

V7 RACER BIPOSTO KIT

The kit consists of the two-seater saddle (a special version of the classic series with different cover and stitching), passenger pegs and passenger grips.

code 886870

SLIP-ON RACING EXHAUST KIT NON-ABS

Racing silencers in polished stainless steel, not homologated, can be mounted “slip-on” on the set of V7 headers (not V7 Classic, Stone, or Special) and are fixed to the standard brackets. They are developed and made in collaboration with Arrow. They grant a proper sound, weight savings and improved performance in midrange and top end power, which translates into better acceleration. They recall the look of racing silencers on V7s that competed in races for production-based bikes in the 70's. They do not require a specific ECU mapping.

code 983169

TANK GRIP KIT

Kneeguards made of soft rubber, adhesive to be applied to the sides of the tank, with a diamond pattern and Moto Guzzi logo.

code 897021

V7 RACER CENTRAL STAND

The steel stand has been designed and engineered in response to the strictest standards of security and strength. The kit includes brackets and related hardware.

Please note that for the installation of this centerstand the USA market sidestand must either be removed or replaced with the EU spec sidestand. Also note: this kit fits the V7 Cafe but not the V7 Classic, Special, or Stone.

code 895509

V7 RACER CHROME STEEL LUGGAGE RACK

This chrome plated steel rear carrier fits in place of the original handles giving the passenger a solid grab handle.

code 887001

TOPBAG

Waterproof topbag in genuine leather, fixed to the rear rack (code 887001) using straps, it can be easily carried using the rear handle.

code 983308

SMALL TANK BAG AND TANK COVER

Waterproof genuine leather tank cover with practical storage pocket and a hole for tank filling. It is fixed with the two screws under the rear edge of the tank, removing the saddle, and by a front strap.

code B063837

LARGE LEATHER TANKBAG AND TANK COVER

Leather tank band and polyester bag with leather inserts, with practical pockets and carrying handle, attaches to the tank cover with quick release and micrometric closure. Equipped with rain hood.

code B063838

COMFORT GEL SADDLE

For those looking for more comfort in driving, here is a two-seater saddle with gel insert. In addition to comfort, it offers easier reach to the ground thanks to the different shape of the inner foam.

code B063597

COMFORT GEL LOWER SADDLE

This two-seater saddle combines the comfort of gel with the convenience of a 25mm lower and narrower profile.

code B063598

V7 BIKE COVER

Bike cover made of anti-scratch black fabric with V7 logos on both sides.

code 895729

ALUMINUM FOOTPEGS

Aluminum footpegs, light and sporty, they highlight the racing spirit of the V7.

Front
code: 2S000168

Rear
code: 2S000169

DRILLED BUSHINGS SET

Three drilled bushings to improve the look of the V7, applied in correspondence with the shock absorber fittings.

SLIP-ON RACING EXHAUST KIT NON-ABS

Racing silencers in polished stainless steel, not homologated, can be mounted “slip-on” on the set of V7 headers (not V7 Classic, Stone, or Special) and are fixed to the standard brackets. They are developed and made in collaboration with Arrow. They grant a proper sound, weight savings and improved performance in midrange and top end power, which translates into better acceleration. They recall the look of racing silencers on V7s that competed in races for production-based bikes in the 70's. They do not require a specific ECU mapping.

code 983169

CAFE' BRACKET KIT FOR EXHAUST

Brackets kit for non-ABS exhaust made of anodized Aluminum. Meant to replace the passenger pegs on the V7 Classic, Special, and Stone, these give the pipes a sporty, upswept angle.

code 886997

V7 SPECIAL AND STONE

COMFORT GEL SADDLE

For those looking for more comfort in driving, here is a two-seater saddle with gel insert. In addition to comfort, this saddle offers easier reach to the ground thanks to the different shape of the inner foam.

code B063597

COMFORT GEL LOWER SADDLE

This two-seater saddle, combining the comfort of gel with the convenience of a 25mm lower and narrower profile.

code B063598

V7 CLASSIC/SPECIAL/STONE CENTRAL STAND

The stand is made of dust and cataphoresis treated steel to resist to different climatic conditions and it has been designed and engineered in response to the strictest standards of security and strength. The kit includes brackets and related hardware.

Please note that the USA market sidestand must be removed for the installation of this centerstand. The USA spec sidestand can be left off or replated with the EU spec sidestand.

The steel stand has been designed and engineered in response to the strictest standards of security and strength. The kit includes brackets and related hardware.

Please note that for the installation of this centerstand the USA market sidestand must either be removed or replaced with the EU spec sidestand. Also note: this kit fits the V7 Classic, Special, and Stone but not the V7 Cafe or Racer.

code 983164

SIDE BAGS KIT

The kit is comprised of a pair of waterproof genuine leather-coated nylon rigid bags with buckle closure, the chromed high-strength steel frame, and a pair of removable inner bags made of nylon. Volume of about 20L per bag (40L total).

code 983162

SEMI-RIGID SIDEBAGS

These technical vinyl sidebags attach easily to the side supports included in the kit and can be locked on. Elegant and spacious with a capacity of 42 liters for the pair, they are equipped with reflective profile for increased visibility at night.

code B063096

V7 SPECIAL AND STONE

MOTO GUZZI®

CHROME STEEL LUGGAGE RACK

This chrome plated steel rear carrier fits in place of the original handles giving the passenger a solid grab handle.

code 983163

TOPBAG

Waterproof topbag in genuine leather, fixed to the roof rack (code 983163) using straps, it can be easily removed through the rear handle.

code 983308

INJECTION COVERS KIT

The pair of injectors covers protect them from accidental contact with the driver's knees.

code 886996

ALUMINUM SIDE FAIRINGS KIT

The side panels of brushed and anodized Aluminum make the V7 even more beautiful: they streamline the "hips" (handy for shorter riders) and recall the handmade creations of cafe racers of the 70's.

code 886994

V7 SPECIAL AND STONE

5 SPEED RACING REARSET KIT

The rearsets, derived from the 5 speed V7 Racer, are made of anodized aluminum and are complete with all necessary hardware for mounting. They guarantee a more sporting driving position and are the ideal complement to clip-on handlebars. They are also handy when adapting a V7 to taller riders. Please note that these are not compatible with V7 II 6 speed.

code 886954

TANK GRIP KIT

Tank grips made of soft rubber, adhesive to be applied to the sides of the tank, with a diamond pattern and Moto Guzzi logo.

code 897021

SMALL TANK BAG AND TANK COVER

Waterproof genuine leather tank cover , with practical storage pocket and a hole for tank filling. It is fixed with the two screws under the rear edge of the tank, removing the saddle, and by a front strap.

code B063837

LARGE LEATHER TANKBAG AND TANK COVER

Leather tank band and polyester bag with leather inserts, with practical pockets and carrying handle, attaches to the tank cover with quick release and micrometric closure. Equipped with rain hood.

code B063838
