Istruzioni di montaggio portapacchi V7
Mounting instructions V7 rear carrier

Thank you for choosing Moto Guzzi genuine accessories. It is extremely important that the accessories are installed correctly, please read carefully the following instructions before attempting the installation

Improper installation of accessories can severely compromise the safety of your vehicle. Improper installation can lead to a loss of stability or wheel lock up, with subsequent serious accident and injury or even death. If you have any question about the proper installation of your Moto Guzzi genuine accessory, do not ride your vehicle. Take it to your local Moto Guzzi dealer who will have the appropriate tools and equipment to properly and safely install your accessory.

For all load-carrying accessories, such as luggage boxes or saddle bags, always observe the recommended loading and attaching instructions. Failure to heed this warning can lead to a degradation in vehicle handling, with subsequent vehicle upset, accident, serious injury or even death.

Mounting instructions V7 rear carrier

Make sure the engine and the heated parts of the bike are cold before carrying out the following instructions

- **Position the motorcycle on a solid, flat surface**
- **Remove the seat from its housing by turning the clockwise.**
- **Remove the side handles by unscrewing M6 screws located at the top of the shock absorbers, and the M8 nuts located at the side of the passenger's seat**
- **Position the carrier in place of the handles, and partially screw the M6 screws and the M8 nuts previously removed**
- **Fasten the M6 screws at 10Nm tightening torque and the M8 nuts at 25Nm.**

Maximum allowed load 3 kg (6.6 lb)

Note: the rear carrier can be installed also in presence of the side bags, using the dedicated supports supplied with them
